

Luhydran[®] S 938 ap

OH dispersion crosslinkable with amino resins and polyisocyanates

Description

- Luhydran[®] S 938 ap is an APEO-free ecological crosslinkable emulsion for furniture foil or heat curing coating and 2K polyurethane interior application

Performance

- High chemical resistance
- High scratch resistance
- Fast drying
- High hardness

Field of application

- Acid curable furniture foil coatings
- 2K coatings for interior use

Fact & Figures

Chemistry	OH-functional styrene-acrylic dispersion
Appearance	White emulsion
Solid content	45%
Viscosity at 23°C	25 mPa·s
pH	2,0
MFT	60°C
OH number	100

Availability

- Samples & Commercial quantities available in Asia
